Subject: RJR Patent 4129427

Per your request, I contacted Gus Borschke at RJR concerning the letter from Charles Green. He informed me that this patent has expired (issued 1978). He will talk to Dr. Green to inquire as to the current status of the technology. He can get plans to us but needs to find out whether PM could purchase a unit from RJR and for what price. He will contact me next week.

Joe
